

Flow Chart: Designated Member Review (DMR) for 3-Year Rewrites

KEY DEFINITIONS

- DMR = Designated Member Review: One or more designated IACUC members handle review
- FCR = Full Committee Review: Review at an IACUC meeting
- Approved: Submission is unconditionally approved
- Modifications Required: Revisions required to secure IACUC approval
- Deferred: Submission is missing substantive information, must be revised, and then must return for FCR

*A rewrite may also be Tabled, which is similar to a Deferral except that IACUC feedback will likely be higher-level (i.e., broad comments on major issues to address)
